

# *iDesign-E*

## Summer Engineering Program at City College of San Francisco

*iDesign-E* is a free, 2-week engineering program for high school students interested in technology. This is a hands-on course where students design, build, play, travel, take apart, and learn – all while having fun and learning how engineers help society.

If you are a high school student, and have an interest in technology, or think you might, this is a program for you. We will spend time in the lab, classroom, and traveling to companies and colleges in the Bay Area. We will also have guest speakers from industry talk about technology, and what engineers do. You will be enrolled at CCSF for one-unit of college credit.

**Date:** June 3 – June 14, 2013 (2 weeks, Mon – Fri)

**Time:** 9:00 am – 4:30 pm

**Location:** CCSF Ocean Campus

(50 Phelan Ave., SF. Easy access with BART Balboa Park & MUNI)

**Credit:** ENGR 48L

(1.0 unit of CCSF credit; you may also be eligible for high school credit)

**Cost:** Free!

**Eligibility:** San Francisco high school rising juniors & seniors

**Contact:** Online APPLICATION and more details available at:

<http://CaliforniaTechEdResources.org/idesign>

Applications due May 7
